

THE CENTRAL RECORD.

TWENTY NINTH YEAR

LANCASTER, KY., TUESDAY AFTERNOON, DECEMBER 24, 1918.

NUMBER 39.

Demand Quality - IN - HARDWARE.

With prices high as they are, it is poor business judgment to accept anything but the very BEST.

Cheap hardware NOW is hardly worth carrying home.

We carry a strictly high-class stock of all kinds of Hardware, and guarantee your money's worth on every purchase.

OUR QUALITY GOODS PROTECT THE PURCHASER.

Conn Brothers.
LIVE AND LET LIVE FOLKS.

"Christmas comes but once a year", and very fortunately Christmas bills follow the same custom.

The Wise Men of old followed the Star, but the wise men of to-day would look at it through a telescope.

FOR SALE:—A new range, also an air tight Good Will heater.
R. E. Henry.

Among the problems of reconstruction will be getting suspenders on the navy and long trousers on the army again.

The government is perfectly reconciled this Christmas to having you buy extravagantly of one commodity—War Savings Stamps.

There will be no difficulty in resolving to get on the water wagon this year. Your only trouble will be that you will probably find it crowded.

After the restrictions on sugar and wheat were relaxed and we might reasonably hope to have a piece of cake, just see what has happened to the price of eggs!

We certainly miss our "guide, philosopher and friend", Mr. Hoover. But we trust that he will soon be home from abroad with some nice new food regulations.

Now that the stringency of eating is relaxed let us hope that the service will fry up some Spagetti a la Talion rather than Kraut ach Sour mir Hua. Or even an unwound onion would suffice to obliterate the hungry, hunnish, humbuggishness of odorous cabbage shrapnel.

It certainly takes nerve for a visitor, uninvited in the first instance, to make a second visit without an invitation. Yet this is what the flu is doing throughout the country.

A pitiful case of deprivation deserving prompt relief has been discovered. A Society for the Presentation of Christmas Gifts to Santa Claus should be organized at once.

The government proposes to reclaim swamp lands and arid lands for the benefit of the returning soldiers. If they could only dump the swamp lands into the arid lands, how much labor could be saved?

We trust that eyes and sweet-hearts will not object to the demonstrative affection shown by the returning soldiers at the sight of the first lady they meet in America. By the way, she carries a torch.

Will some wise person please inform us: With the president and the army on one side of the ocean, Congress and the Supreme Court on the other side of the ocean, and the navy all over the ocean, where is Uncle Sam?

The news of Germany's bankruptcy will not be likely to surprise us when we realize that she not only had to support an army in Europe, but also an army of three hundred thousand propagandists in the United States.

The Public Health Association (just in convention) admits that "medicine is the art of entertaining patients while nature effects a cure". Is it not almost a pity that under these circumstances the doctors so often entertain us with castor oil?

THE RECORD EXTENDS ITS HEARTIEST CHRISTMAS GREET- INGS TO ITS PATRONS, FRIENDS, READERS AND CORRESPONDENTS.

There will be the regular yearly election of officers of the Masonic Blue Lodge, next Friday evening at the rooms of the order. Every member is asked to be present.

Red Clover Seed.

We are now booking orders for a choice lot of Home Grown Red Clover Seed. Home grown clover is better this year than Northern seed. Call or telephone for price.

Hudson, Hughes and Farnau.
12-23-31.

Here's A Christmas Gift

Speaking of Christmas gifts and wondering what one should give a friend, may we not suggest a year's subscription to the Central Record would be appreciated and very appropriate. Only \$1.50 to any address in the United States.

Tom Jennings Dead.

Another worthy colored citizen of the town, Tom Jennings, died at his home in Duncantown last Friday morning, and was buried Saturday afternoon. Tom was one of our local painters and until his health failed him several months ago, was a faithful and honest worker.

A. B. Brown Buys Farm

The D. A. Thomas Realty Agency sold for John N. Reas his farm of 148 acres to A. B. Brown for \$125 an acre, possession January 1st. This makes quite a good addition to the large acreage of good land already owned by Mr. Brown in this section of Garrard County.

School To Open.

Professor Hopkins informs us that the Graded and High School will open next Monday, December 30th. He insists that every pupil be on hand to start in with the beginning of the New Year, with renewed energy, that the time lost by the epidemic of "flu" may be made up before the close of the school.

Kemper.

Mrs. Icie Kemper, aged 84 years, died at the home of her daughter, Mrs. Robert Clark, on Lexington pike Sunday morning. Several months ago Mrs. Kemper had the misfortune to fall and sustain a fracture of the hip, from which together with her extreme age, caused her death. Every kindness and attention was given her during her last illness, and she bore her suffering with fortitude and with trust in her Savior. She was a devout member of the Fork Baptist church and the funeral services were conducted there yesterday morning at eleven o'clock by Rev. J. W. Mahan and W. D. Marksbury, after which the burial took place in the cemetery at the church.

Silos In America.

Siloism is the greatest modern saving system ever yet communicated to the American Farmers. It saves the bargaining for stock-feed during the winter months by saving and transforming into exceptionally invigorating food the supplies given off the land during the summer. It will not erasit its capacity during the winter unless the processor has an enormous pasture of stock. In that case the maintaining of two silos will, by far, prove the economy and convenience of these "hold over" barns by cylindrical form.

The present flourishing field of these instruments is in Illinois, Iowa and the western states. The origin was in the ever thrifty European fields during the period closing the middle ages. Economy was then the key-note of soil propaganda just as it is now. It's obscurity in this country until recently is not accounted for. Once found, it is discovered to be not only an advantage but a necessity.

The ancient builders of these barns constructed them of wood and placed them separate from his barn. Today they are made of stone, cement and wood and are attached to the barn so that, in many cases, stock are fed directly from them.

Silos are a saving to the farmer in money, time and labor and he secures everything and wastes nothing, from the smallest produce of his soil, by storing it into these sour vats.

Bailey and Moss

Sell Business.

The firm of Bailey and Moss who for the past five years have done a splendid produce business in Lancaster have sold their business to the Garrard and Lincoln Produce Company and the transfer was made on the 15th. Mr. Bailey will remain in charge of the business of the new firm.

Santa Claus

Brings Peace.

As far as we can tell, the peace conference will be getting lined up about Christmas.

You and I might have been born in any epoch. We might have been living in A. D. 1, and have seen the first Christmas. But we didn't.

We have at any rate the privilege of living in 1918, and seeing the greatest of all Christmases except one.

We must celebrate it as such. And Christmas giving this year must be more than a perfunctory exercise, even though we combine discretion with liberality.

"Billy" King Wounded In France.

A telegram from the War Department last Thursday announced the distressing news that "Billy" King had been severely wounded while in action of the front in France. The telegram announced that a letter giving more details would follow, but up to going to press nothing further has been heard.

"Billy" has many friends here in Lancaster, where he was in business for some time, who will regret to hear of his misfortune and all hope that the wound will not prove so seriously as was first announced. He volunteered in the Marines last Spring and took his examination at Lexington, being the only passed out of eight applicants for that day.

A Labor Party

In Politics.

Organized labor has proposed to form an independent political party. The principal of labor-unionism is excellent, but the advantage to any nation of a separate labor party is dubious. Its presence involves class-legislation.

If bankers and stockbrokers organized a separate political party to get special privileges for financiers the effect would be mischievous. It would mean an attempt to get legal privileges for a favored class.

Organized labor is a favored class. Its members get far higher wages than bookkeepers, stenographers, store-clerks, sewer-diggers, farm laborers, and many other grades of employed help.

Labor unions are no novelty. They had them in Solomon's time. When Hiram, king of Tyre, sent mechanics to help Solomon build his temple they organized in lodges and federations. And before Shakespeare's time in England the different crafts were classified according to guilds. A labor party in politics is a more modern conception, but they had one in England for fifteen years, and during the war it has done a good deal toward holding up munition supplies and lengthening the struggle.

The proposed presents too many of the features and aristocratic government to be really democratic. It suggests the sacrifice of the nation for the benefit of the party.

Moves To Richmond St.

My dental offices will be located after Jan. 1st 1919, in the offices formerly occupied by Dr. J. S. Gilbert, in the Central Record Building on Richmond Street.

I will appreciate your patronage and will look after your dental needs to the best of my ability.

Respectfully,
Dr. M. K. Denny,
Office phone 217, Home phone 247.

Renew your magazines with me now, especially the Ladies Home Journal, Country Gentleman and the Saturday Evening Post.
12-23-24-pd. Mrs. Dollie Brown.

We wish to thank you for your patronage for the past year and wish you

A Merry Christmas
and

A Happy New Year.

COLN, CASEY AND ALL
ADJOINING COUN-
TIES.**

**Danville Tobacco Mar-
ket**

**WILL HOLD ITS
OPENING SALE
Monday, Dec 30th, 1918**

At 9:00 O'clock A. M., Promptly.

Having been assured by all the large manufacturing companies that they will be ready with their buyers to begin the purchase of tobacco on December 30th, on that date we will hold our Opening Sale, beginning promptly at 9:00 o'clock.

All the growers and the general public are cordially invited to be present on that occasion.

We are very anxious to have the tobacco growers attend this sale, believing that we will demonstrate to them that we have acted wisely in their behalf and safe-guarded their interests, by holding back our Opening Sale until the large companies were ready to come on the market with buyers.

Come and inspect our new fire-proof addition. With this additional floor space we will be enabled to unload and handle your tobacco with greater ease and much more rapidly. Our floor space has been increased fifty per cent., and our unloading facilities have been greatly improved. Our warehouse is the largest south of Kentucky river.

We will endeavor to maintain the reputation, already established for the Danville market, as being one of the best and highest in the State.

We will have experienced men in every department to look after your needs.

Beginning with the opening, daily sales will be held until the close of the season. Come and hear Col. Forbes, our great auctioneer. We take this occasion to thank our many

customers for past favors and ask for a continuance of their patronage.

I. M. DUNN, Pres. DANVILLE, KY.

The Part Of The Bond.

American dollars, supplied chiefly through the sale of Liberty Bonds, played a big part in the winning of the world war.

They sent an army of 2,000,000 Yanks to the firing line in about the shortest time such an army was ever assembled.

They put under way the construction of a federal merchant marine that will be diverted from war work to extension of American commerce.

They supplied the allied nations funds to the extent of more than \$7,000,000,000 with which to carry on their fight.

And in effect they tipped balance of world power so decisively that there was nothing left the Germans but surrender.

Yet this is but a part of their tremendous and yet unfinished task.

We must do our part in restoring law and order in Europe. We must lend our assistance at whatever cost to the re-establishment of a stable government in Russia. We must help feed the starving millions in the territories devastated by the Hun. We may have to lend substantial aid in the end to Germany herself.

But above all we must thoroughly look out for the best interests of our own country commercially, at home and abroad, both for the immediate present and future. This is a question that intimately concerns us all.

The duty of the dollar hasn't been fully done by a long shot.

Nor has our obligation to furnish that dollar been removed.

Nor our debt to humanity been fully paid.

Nor will all this have been accomplished until normal conditions are restored.

So don't contemplate another loan in a spirit of resistance.

Stand by your duty and your country's duty.
